

Finding and Logging into the iCP App

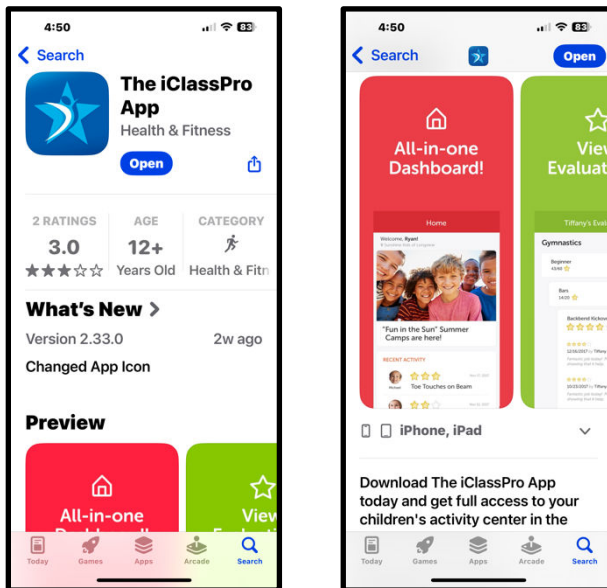

The iClassPro A...

Health & Fitness

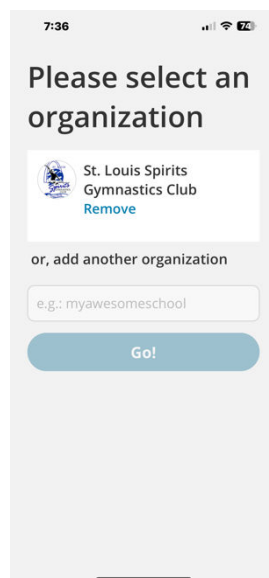

★★★★☆ 2

Download the App onto Your Device

1. Search iClassPro in your App Store

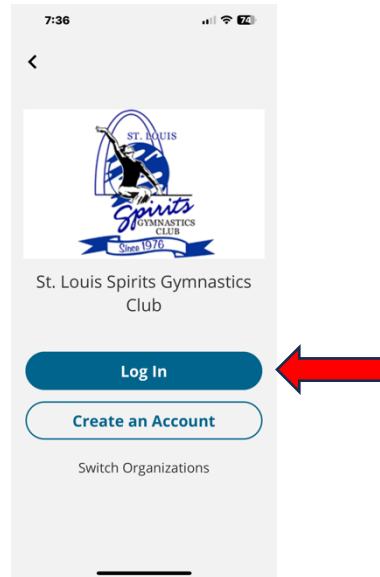

2. Enter our Organization: **stlouisspirits**
 - a. Once it adds it then click on it

3. Login to Your Account

- a. Select "Log In"
 - i. DO NOT CREATE A NEW ACCOUNT
- b. Use the primary email address you gave us when registering
 - i. If you don't know what this is please reach out to us so we can give it to you 314-461-1877 (phone or text*)
 1. *text preferred
- c. If you have never logged in before or don't remember your password
 - i. Select Forgot Password to create (a new) one

4. Accept Policies

A screenshot of a mobile app interface for account creation. At the top, the status bar shows the time as 7:36. Below the status bar is a close button (X). The main content area has a blue background with white text. It says: 'To create an account, please review the items below and enter the email address that will be used as your login. An email will be sent to this address in order to continue the account creation process.' Below this is a text input field labeled 'Login Email Address'. Further down, there is a checkbox and the text: 'I CERTIFY THAT I AM AT LEAST 18 YEARS OLD AND I CONSENT TO THE SOFTWARE VENDOR'S [PRIVACY POLICY](#) and [TERMS OF USE](#) and [COOKIE POLICY](#)'. At the bottom is a blue 'Submit' button.

5. You are successful when you see the Home Screen

If there is more than one email address associated with your child's account (Ex. Mom email & Dad email) and you both want to be able to login under your individual accounts you can have separate logins.

The person who has the primary email listed above will need to create a password when first logging and then grant permission to the secondary email so both people can login. You do that by:

1. Navigate to the My Account screen
2. Scroll down to the Responsible Parties
3. Click on the ">" arrow next to the person you want to allow to login
4. Click on "Send Invite Email"

You will be asked to confirm that you wish to send the email to the address attached to the user and will be given the opportunity to change this email address if needed.
